STREET LIGHTING LED CONVERSION KITS

Why throw perfectly good fixtures into the landfill when, for very little dollars you can refurbish and convert them into modern, low maintenance, long life LEDs. If this makes sense to you please contact us and we can help preserve the future together.

**Convert 70 to 250watt HID lamps to
efficient long life LED**

Minimal Maintenance—

- No ballast to replacejust an occasional reflector cleaning
- 50,000 hour rated lamp life
- IP86 rating (WET) in fixture
- Draws 30 watts for 2,750 photopic lumens
- Bugs and critters don't like this light

LED lamps to convert from the
newest

to the oldest fixtures

Installation Instructions:

1. Remove old lamp
2. Screw in LED replacement lamp
3. Wire out ballast so that main AC voltage is connected directly to the lamp socket
4. That is it

LED CONVERSION KITS

for a sustainable future

We have LED lamp assemblies to convert almost any fixture up to 400 watts. This is done in the field in a minimum amount of time either by your in-house maintenance personnel or by our skilled installers.

LED Benefits Checklist

- Energy efficient...LEDs produce equivalent light with 75% less energy than a conventional HID lamp
- Highly efficacious...LEDs convert energy to light, not heat
- High ballast factor low THD
- Long life span...50,000 hours or 12-17 years in most cases
- Durable...resistant to hot, cold or vibration
- Instant-on to full lumen output, unlike HID's
- Lightweight and compact
- No mercury or other toxins
- Environmentally friendly and recyclable...reduces carbon emissions,
